With several years of experience in the field of automatic distribution, our dedicated and experienced team supports you in choosing your distributor and offers you cutting-edge service adapted to your needs.

DIGBY

Do you want to enhance the customer experience within your establishment?

Around a common project for the Cheverny wine house, the two founders imagined and designed a modern and connected automated wine distribution system by the glass. In 2015, after several years of development and improvement, marketing began with the ambition of making this new product a must-have on the luxury market, connected objects and of conveying the strong values of respect for French wine.

FILTRALIFE

Instantly transform your water into a drinkable solution.

+ 1.300 liters of water

Produced per hour, per machine.

This translates to a potential of 10,400 liters over 8 hours.

We wanted to create a reliable and user-friendly machine to ensure its usability for everyone. Filtralife is the result of this endeavor!

MISSION INTERCOOP

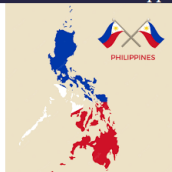

FROM FRANCE TO PHILIPPINES BUT ALSO FROM PHILIPPINES TO FRANCE

Mission Business aux Philippines

"du 20 octobre 2024

au 29 octobre 2024"

Développez vos affaires avec l'Asie
et surtout avec les Philippines !

COOP USS vous invite à nous contacter pour vos recherches de produits, partenaires,
fournisseurs, distributeurs, technologies aux Philippines

**WE CAN ORGANIZE
ECONOMIC MISSIONS FOR
COOPERATIVES**

WE ARE SIMONE

The only one REALITY AUGMENTED!

Our founders are three individuals who specialize in three different fields: animation and 3D, branding design and project management.

Together, these specialisms have formed a boundary-pushing creative studio that knows what it takes to make a real difference.

A thirst for innovation

We're always pushing to create new and innovative experiences with the latest technology. The cookie cutter approach is not how we like to tackle things. We want to challenge and be challenged.

A sustainable spirit

We want to use our platform to do good in the world – both socially and environmentally. So sustainability is always top of the list. However, we know that this is an always-evolving battle and that we might not always get it right first time.
